General Information	<ul style="list-style-type: none"> Maximum \$125,000 face amount. The policy face amount reduces by 50% at age 65 or after 10 years, whichever is later (premiums remain as is). During the first 12 months of the plan 100% of premium is applied to the base life insurance policy and associated riders. The annuity may be funded during that time by additional dollars added to the insurance premium or with a single sum. Beginning in the 13th month 50% the life insurance premium (excluding the amount attributed to the Additional 10-Year Term Rider and/or Disability Income Rider¹) is applied to the individual annuity. Any additional dollars directed to the annuity in the first 12 months may continue and the owner has the option of increasing deposits up to the contract annual limits. After 10 years 100% of the premium may be directed to the annuity and the life insurance coverage may be continued as a Reduced Paid Up policy.
Issue Ages²	<ul style="list-style-type: none"> Issue ages 0-64, coverage for life.
